What's New With Prestone?

Prestone Introduces Improved Antifreeze/Coolant

Exciting news coming from the Prestone team with the introduction of a new antifreeze formula that provides advanced corrosion protection for a vehicle's entire cooling system, helping engines run longer. The improved antifreeze formula uses patented Cor-Guard™ inhibitors to better protect areas in the cooling system most vulnerable to corrosion.

A Revolutionary System Of Corrosion Protection...

Help your engine last longer with new Prestone Concentrate Antifreeze/Coolant. Fortified with patented Cor-Guard™ Inhibitors, Prestone prevents corrosion where it starts helping your coolant system run more effectively.
